

FFC CSR - Al Shifa Successfully Conclude “Let There Be Light” Campaign 2013

5 eye camps were held in year 2013 in collaboration with Al-Shifa eye hospital with the aim to provide ophthalmological assistance to underprivileged Pakistanis belonging to remote and far flung areas. The camps were successfully executed by the CSR department and Al Shifa, treating over 3000 patients with ocular medicine, visual aids (glasses) and IOL surgery free of cost.

The campaign targeted remote areas including Chak Beli Khan, Kahuta, Kotli Sattyan, Chakri Town and Khayaban-e-Sir Syed localities which house a large underprivileged population with limited or no access to such facilities.
