

Vaccination/Immunization
Sugar Testing
Hepatitis B and C
Blood pressure testing
Tuberculosis diagnosis
Free Consultation
Free Medicine

Food Security & Agriculture Center of Excellence (FACE) successfully held a two-day medical camp at Ahmedpur Lamma, Rahim Yar Khan on 28th and 29th March 2022 in collaboration with Indus Hospital Network.

Quality healthcare treatment including free consultation, Hepatitis B and C testing, sugar and blood pressure testing, vaccination/immunization and Tuberculosis diagnosis using latest x-ray machines along with medicines was provided free of cost to the local community.

More than 400 patients benefited from the camp, majority being women. Indus Hospital Network, through its kind support, provided free medicines and qualified staff comprising of female and male doctors, community midwife and paramedic staff for the stated camp.

The local community was highly appreciative of this effort by FACE since it provided quality healthcare service in their area which is devoid of such facilities.
