Fauji Fertilizer Company – Illuminates Sona Tower in support of the Global Breast Cancer Awareness Drive. Pakistan has the highest rate of breast cancer in Asia. With alarming ratio of **1 out of 9**, over 10.2 million women in Pakistan are at a risk of having breast cancer in their lifetime. Prevalence of this this cancer is highest among all the cancer in Pakistan i.e 38.5%. Fortunately, it can be detected at a very early stage and survival chances are more than 90%. Thus, creating awareness is as important as providing treatment of this fatal disease as it is very time sensitive.

*Let's play our role...the brochure including relevant information is placed at the reception counter.
